### Do You Get Propaganda?

As a guide to those people who are perplexed about handling unsolicited mail, particularly foreign mail which may be propaganda, Postmaster General J. Edward Day offers these words: "Unsolicited communist propaganda from the Soviet Union, from Soviet satellites, from Cuba and from other places outside the U. S. is being sent to persons in this country. This propaganda attempts to promote objectives, in the International Communist Movement. It often appears, on the surface, to be innocent and unimportant."

"But the communists regard propaganda as an important and necessary means for subversion of our nation and the free world. In order to achieve the maximum impact, this propaganda often comes to unsuspecting addresses who are associated with or in sympathy with, communist objectives."

"This propaganda is not labeled to reveal its origin or content and is not always easy to identify."

"If you have received unsolicited mail from abroad, it may contain such propaganda. If you wish, you mark it 'refused' and return it to your local post office."

"The privacy of your mail continues to be respected by the Postal Service," Postmaster Day concludes.

Secretary of Agriculture Orville Freeman told a nationwide TV audience Sunday night that the press of the nation was not justified in its attack on his Department, himself and his programs.

He said the press, instead of helping the Department, had, only criticized it.

Some of the plaintive sounds heard by Secretary Freeman were noises being made by taxpayers and farmers, too.

Who's For A Tax Reduction?

Congressman A. S. Herlong Jr., of Florida, has proposed a plan for reducing income taxes without reducing the income of the federal government and urges those who favor such a plan to let his Congressman know about it.

## Override School Tax Said Vital For L.G.

Endorsements to date of the April 10 override tax election in the Lemon Grove School District indicate both understanding and support of the issue, according to school officials. Unanimously called by the school board, the election asks an increase of 33c per hundred dollars of assessed valuation from the present \$1.65 rate to \$1.98.

Co-chairmen of the Citizens Committee for Schools, Dr. Simon C. Brumbaugh and Jack Durham, announced that the increased local funds would be used to meet operational expenses in the elementary district only, kindergarten through eighth grade. That includes eight school buildings in Lemon Grove.

A drop in State funds to the schools plus normal increased costs meant drastic cuts in last year's budget, board members reported. Unless some local money is forthcoming, even greater reductions in personnel, materials, and services will be necessary for the coming year.

The increase requested holds Lemon Grove in line with tax rates in neighboring districts it was reported and will provide operational funds for the basic elementary program. No buildings or sites will be purchased; local tax money of this nature is earmarked only for a better instructional program.

Community organizations endorsing the election for a YES vote to date include First Congregational Church, Methodist Church, San Altos PTA, Vogue Section of Lemon Grove Women's Club, Golden Avenue PTA, Little league, and L.G. Kiwanis.

Also L.G. Pony league, L.G. Chamber of Commerce, L.G. Masonic Club, L.G. Lions Club, District Teachers Assn., Mount Vernon PTA, L.G. Junior High PTA, L.G. Coordinating Council, Palm PTA, Monterey Heights PTA, Classified Employees Assn. of L.G. Schools, and Vista La Mesa PTA.

## CIVIC GROUP TO HEAR SAN MIGUEL FREEWAY PROPOSAL

San Miguel Freeway

J. Dekema, district engineer of the California Division of Highways in San Diego will be the featured speaker at the March 19 meeting of the Encanto Civic Assn. The meeting will be held at 8 p.m. at Randall Hill (Encanto Community Hall) at 65th and Broadway, Encanto. The public is invited. Dekema will describe the proposed freeway system in the San Diego area and is expected to discuss in some detail the San Miguel Freeway which will run from the vicinity of 47th and Imperial to the Sweetwater Reservoir, skirting the Encanto area on the south and west.

A public hearing on this freeway is imminent and Dekema

indicated that he would be very much interested in obtaining all possible information from local residents prior to this hearing.

The proposed freeway will connect on the west with the new Interstate Inland Freeway, now in the design stage, and on the east with the South Bay Freeway which the County of San Diego proposes to construct in the near future.

Dekema said that the main reason for an early decision on the San Miguel Freeway and others in the ultimate network was to allow proper local planning and to eliminate the need for purchasing expensive improvements with consequent community disruption in the future.

## SCHOOL GROUPS TO MEET ON NINTH DISTRICT PTA SPLIT

Mrs. O. J. Gulker, director of extension for the 9th District PTA will conduct a pre-organization meeting Wed., March 21, 7:30 p.m. at the San Miguel Elementary School, 7059 San Miguel ave., L.G. "Anyone interested in PTA may come to help form the new council which will encompass all of the elementary schools in the L.G.-S.V. areas," said Mrs. Gulker. The reason for the "split" from Mt. Helix Council as outlined to the 9th District by the president, Mrs. John S. McKee was that with 21 units, the council was getting too large for one executive board to handle.

Mrs. Byron Netzeley, 9th District parliamentarian, will be in charge of electing both the by-laws and nominating committees. A special invitation is extended to the principals, or

To help more than 12,000,000 Americans with arthritis, from infants to old folks, the Arthritis and Rheumatism Foundation needs your support.

## KEEP SCHOOLS UNDER LOCAL CONTROL, NAGY SAYS

Californians should not allow local control of education to slip further away, John Nagy Jr. of Chula Vista said in La Mesa Wednesday. Nagy, a Democratic candidate for Assembly in the 77th District, spoke to Lemon Grove-Spring Valley-La Mesa campaign workers at the home of Arch Gerard, 4002 Marian, La Mesa.

Nagy said citizens should guard the "conditions" under which public education is administered and financed, so that schools can be tailored to the needs of the community.

Nagy said because education costs are rising, school districts turn to state and federal aid, and this kind of financing erodes local control. Nagy said school districts should broaden the tax base by making land values pay more of the tax burden, thus allowing school taxes to be collected with less effort than now.

## 13 Jobs Open For High School Teachers Here

The approval by the Grossmont Union High School District board of trustees of contracts for five additional teachers leaves 13 positions for next year yet unfilled Assistant Superintendent John T. Warburton informed the board members Monday evening.

Warburton reported the greatest shortage at the present time is in the field of mathematics. A number of positions are open in this field in which well qualified applicants are scarce because of exceedingly stiff competition from other districts and from industry.

A preliminary report on salary schedule problems was received by the board without action pending the development of the budget for 1962-63 school year.

A report showing a closing gap in wage ratio between teachers and administrative personnel, was supplied by request of the trustees.

The administration and the board were agreed that no action be taken on administrative schedules until a more complete report can be prepared and until consideration can be given to the basic salary schedule for classroom teaching.

## V.L.M. Principal Returns After Long Illness

Vista La Mesa students beamed this week when Clarence Allen, choir principal, took over the reins at that school following a prolonged illness. Although his return to duties is still on a part-time basis according to Superintendent Byron Netzley in his report to the school board Monday night. It indicates recovery for a well known administrator.

Stricken early this year with a series of heart attacks, Allen was confined to a hospital and later his home for several weeks. His return, now limited to three half days each week, will be gradual, and full resumption of duties is not anticipated for some time.

Robert Sutton, principal at Lemon Grove Junior High, has been assisting with heavy administrative duties at Allen's school, and he in turn has been assisted by Rick Stammerjohn, sixth grade teacher. Stammerjohn has taken on routine tasks to ease the load caused by Allen's absence. Louis Poluzzi's duties as administrative assistant at Sutton's school likewise have increased as the entire staff attempts to "share the load."

## Retraining Program Offered By State

Unemployed persons whose skills are no longer in demand can do something about their situation under the retraining program now offered by the State Department of Employment in cooperation with local schools.

All unemployment insurance claimants for whom reasonable job opportunities in their own lines of work are non-existent or extremely scarce are urged to apply for retraining benefits.

Persons accepted for retraining to fit them for a different line of work will continue to receive unemployment insurance benefits while satisfactorily pursuing a retraining course.

In the four and one half months in which the retraining program has operated, more than 1,000 men and women have enrolled in retraining courses. Many of those who have completed courses have obtained new jobs in different fields from those in which they had previously worked.

Typical of those who have found employment by taking a retraining course are the following:

A 52-year-old carpenter, who completed a real estate course and is now selling real estate; a 40-year-old laborer who completed a course in soldering and is now working as an electronic solderer; a 21-year-old former telegraph typewriter operator who attend a plumber's apprentice school and was placed as an apprentice plumber; and a 51-year-old woman who could no longer get work as a packer and was hired as a power sewing machine operator after completing a retraining course.

Persons interested in applying for retraining benefits may do so at the nearest local office of the State Department of Employment. Retraining courses are for skills in which there are likely to be job opportunities. Applicants must be capable of successfully completing such retraining.

## MAIL BAG

Dear Editor:

Home owners of L.G. and S.V. should take a good look at their current tax bill before voting any new school taxes.

When three-fourths of our tax bill is for schools it's time to call a halt to this unnecessary spending.

We do not need a jr. college in every back yard. Teachers do not need an increase in pay every year.

## SV Business-Professional Club, Chamber Meet, Hear Speech By Sherer

"Don't price yourselves too low," Ray Sherer, executive manager of the La Mesa Chamber of Commerce told a group of business and professional persons and members of the Spring Valley Chamber recently at a meeting in the S. V. C of C hall.

The meeting was held to bring together business and professional people and the Chamber.

Sherer, who was guest speaker gave a brief history of chamber work, stating that the first was organized 200 years ago on the East Coast for protection of commerce.

The La Mesa Chamber, Sherer pointed out, is doing something today that the Spring Valley Chamber should be doing: issuing a pamphlet telling what the chamber is; how it became organized; what it does for the community; who can belong; how it works; its office services; and who pays the bills. One of the special office

services of the L.M. Chamber, Sherer said, is registering young men for the service.

Speaking of committees, Sherer said a chamber should not lose sight of the fact that although it may be made up mostly of business people, still the backbone of the chamber is made up of home owners. He said many of these home owners are former business people and well acquainted with committee work.

Sherer commented that a chamber undervalues itself too low when it has low membership dues. Higher dues, he pointed out tend to make people realize a chamber is active and many want to know "what's going on." He said a chamber needs more money to do more and better things for its community.

Sherer said when he first became associated with the L.M. Chamber, four years ago, the budget was \$14,000. This year, due to growth and more activities the budget is \$42,840.78.

The Spring Valley chamber of commerce is lucky, Sherer said to have its own quarters. The L.M. chamber, which is 50 years old still rents.

In conclusion, Ray Sherer urged more cooperation in Spring Valley between the business and professional people and the S.V. chamber of commerce; for he pointed out the chamber is the "voice of the community."

## 'Aloneness,' Planning Commission Give Way To Valley Woman

SAN DIEGO (CNS) — A Spring Valley woman persuaded the County Planning Commission to override the recommendation of its own committee and grant her a permit for a rest home.

Mrs. Josephine S. Harris applied for the special use permit to accommodate not more than three guests in her home at 9255 Carthay Circle.

The committee recommended denial because: 1. the area has only single family dwellings; 2. the Harris home is too small, and 3. there is insufficient off-street parking.

The state issued a license Mrs. Harris stated. "They said my home is big enough for 3 elderly people. I have a fenced in yard and my neighbors are agreeable to my plans," she said.

Mrs. Harris added that the state said she could have three guests, but she only planned to take in two. "It's just so I won't be alone," she added.

The commissioners then approved granting the permit.

### Decision Postponed On Cocktail Lounge For Casa De Oro

A hearing at the District Court of Appeals on Feb. 27 to determine if a liquor establishment could be located in Casa de Oro area of Spring Valley, was left "hanging in air" with the final decision two or three weeks away.

The hearing was held before hearing officer Roy Hollingshead, of the State Alcoholic Beverage Control. Edward Bia, one of the men wanting to build the cocktail lounge was represented by Attorney Paul Peterson. Rev. James King, pastor of the Foothills Methodist Church, acted as his own attorney in representing a group protesting the lounge. He showed protest letters from various organizations.

John Gulke, special investigator for the Dept. of Alcoholic Beverage Control showed maps and told of various distances from the bar to other points; including that of the Spring Valley Junior High School. He said he measured 550 feet from the front door of the bar to the school property and 970 feet to the school building. He said the original application of Edward Bia and Robert Punta was approved; that the business was to serve no meals and that children are not to be allowed in the building. The building would be located at 9711 Campo rd., just east of the Mayfair Market.

Sups. Reject Offer Of S.V. Park Aid

SAN DIEGO (CNS) — Investigation by the county parks and recreation departments of the proposals made by Mrs. Daphne Kahrs of Spring Valley for sites for parks in the S.V. area was halted Tuesday by the Board of Supervisors.

The Supervisors had on their docket a letter from Mrs. Kahrs listing various sites said to be suitable for parks and saying that a real estate firm would show the property to a county committee.

Mrs. Kahrs also offered to help the park dept. with any budget problems that might arise in connection with acquiring park property in the area.

De Graff Austin advised "filing" the proposal of aid. He said the same offers of help "have been received six or seven times before."

The county has no funds for acquisition of S.V. park land, it was pointed out.

S. V. FIREMEN'S WEEK

Fire Strikes Tresser's Market; Meat Well-Done

The Spring Valley Fire Dept. had four fires and five ambulance runs between March 6-13.

"Big" fire of the week was at Tresser's Market, Campo and Bancroft. Sometime between 9:30 and 10 p.m. on Saturday, fire started at the rear of the store near the meat counter. The fire alarm was turned in at 9:53 p.m. Cause of the fire and amount of damage have not been determined.

The glass in the meatcase was cracked in several places. Fire and smoke blackened the rear of the store, but flames did not penetrate the ice box. Kenneth Tresser, one of the owners said all meat in the ice box was edible. Meat in the open case was overly "cooked."

The store was blackened with smoke to the front door, with many canned goods being blackened. All plastic goods were severely damaged, twisted by heat into all shapes.

CAR BLOWS TIRE

A car, driven by sailor Thomas Tagg (address unknown) blew a tire at the corner of Campo and Rogers on March 10. There was little damage. The firemen washed leaked gasoline from the pavement.

On the same day fire trucks were called to 3310 Par dr., in Brookside. The line from a gas meter was broken, filling the immediate area with gas. A spokesman for the Fire Dept. said this was the second time they were called there.

Also on Mar. 10 at 8:04 p.m., a fire, possibly caused by a burning cigarette caused damage to a couch and extensive damage to basement living

## Class In Police Science To Be Given At College

Grossmont College will inaugurate next fall a program in police science studies aimed at both the working law enforcement officer and administrator and at high school seniors with an eye on a law enforcement career.

At a three-hour meeting recently, college administrators and eight law enforcement officials from the Heartland area came to the conclusion that a police science curriculum at Grossmont is desirable.

Present were Chief J. C. O'Connor and Capt. W. A. Dart from the El Cajon Police Department; Chief Glenn Adams and Lt. Donald Fach from the La Mesa Police Department; Lt. Quentin Cash and Sgt. Fred Lee from the San Diego County sheriff's office; Chief Deputy Richard Strumsky and Deputy James Marron from the El Cajon marshal's office, and the college president and deans.

It was decided that the law enforcement officers present would survey their staffs to determine what basic four courses

should be offered next year at Grossmont. On the pre-employment training level, the college officials will canvass district high schools to find out the amount of interest among students. A rough estimate has already indicated that 40 current seniors are thinking of a career in law enforcement.

The college also will confer with San Diego City College and Southwestern College to ensure a program compatible with those schools.

### HIGH SCHOOL YEAR SET FOR 1962-1963

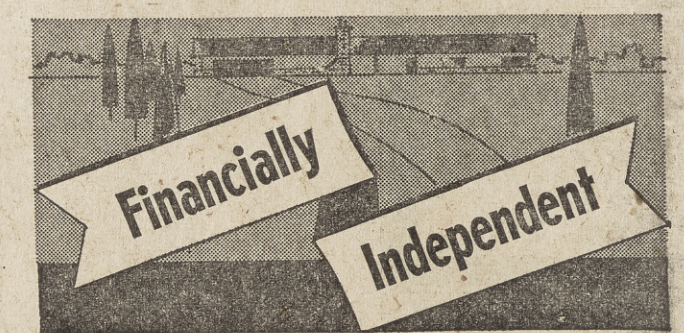

The calendar for the school year 1962-63 was set by the Grossmont Union High School District board of trustees on Tuesday evening calling for 178 teaching days. The calendar is a result of compromises with the various elementary districts in the Grossmont Union High School District area so as to make possible a common calendar for all pupils in the area.

School will begin Sept. 11 and end on June 14, 1963. The calendar deviates from a recommended county calendar only with respect to Christmas vacation. In the Grossmont district students will be dismissed on Wed., Dec. 19, before Christmas and return on Jan. 2, whereas the county calendar called for Christmas vacation to begin on Dec. 24 with resumption of school on Jan. 7.

Supt. Lewis F. Smith reported that San Diego City, Los Angeles, and Long Beach had adopted calendars of 178 days. "The trend toward the longer school year is apparently being met by the large majority of students who now attend our summer school sessions," said Smith.

An ancient Christian custom of draping the altar cross with a purple veil during Lent has been revived at Shepherd of the Valley Lutheran Church, Spring Valley.

Also a part of the Lenten emphasis are mid-week Lenten services held each Wednesday evening at 7:30 in the chapel at 3944 Willowside lane. The pastor uses character sketches, Bible studies, and other means to call the congregation's attention to "The Meaning of the Christian Life for Me."

The public is invited to the Lenten services on Wednesday evenings.

## GOD'S MINUTE

REV. H. C. BAKKEN

LENT

As Jesus moved through His earthly life, it became more and more evident that there were forces opposing Him and His mission. The nearer He came to the climactic moment of redemption, the more intense became the hatred with which He was met. He moved on in spite of the opposition to complete His task.

## Dominion Over Limitation Theme Of 'Substance'

How to gain dominion over glory: no good thing will be lack and limitation will be explained in the Lesson-Sermon on "Substance" in all Christian Science churches Sunday.

Assurance of unlimited abundance is presented in the Bible selections including these verses from the Psalms, "How precious also are thy thoughts unto me, O God! how great is the sum of them!" "For the Lord God is a sun and shield; the Lord will give grace and

man should wish for, and in reality has, only the substance of good, the substance of Spirit, not matter." (pp. 335, 301)

The Golden Text is from I Corinthians (2:9, 10), "Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him. But God hath revealed them unto us by his Spirit."

## WHAT'S DOING

### FAMILY NIGHT

Fifty five guests including the families and friends of your telephone business office employees enjoyed a tour of the office and explanation of our daily work. A variety of telephone equipment for home and business was on display; of special interest were the Hear Your Voice and Dial A Phone displays.

The highlight of the evening was a lecture demonstration "Space Age Communication" given by Glenn German. This dealt with Project Echo and the part it plays in space communication.

There were balloons for the children, and refreshments were served for everyone in our lounge to close this family visit.

Accidents happen—but there's no extra charge for phone repairs. Telephones are built to take plenty of wear and it's usually many years before one needs fixing.

However, if ever your phone is accidentally damaged—or something goes wrong through normal use—just call us and we'll send someone out to fix it. There's never an extra charge; your telephone comes with built-in repair service.

You might not think so, listening to a fast talker, but everyone's speech is full of silent spaces, actually split-second pauses. Now, telephone people have found a way to put those silent spaces to work on overseas phone calls.

Between California and Hawaii, for example, an amazing device called TASI (short for "Time Assignment Speech Interpolation") is now doubling the number of voices trans-ocean cable can carry.

8,000 times a second TASI samples voice channels, uses those split-second pauses in speech to send bits of other conversations over the momentarily idle lines. At the other end, the conversations are unscrambled and sound just like normal phone calls.

TASI is another way we've found to bring you more—and better—telephone service. Pacific Telephone
